Password: MeetupTest123

Instructions to Run and Test the Application

1. Open the AWS link (<http://ec2-54-174-186-17.compute-1.amazonaws.com:3000>) on your web browser.
2. You can either sign up or login with the test credentials provided above. To do so, access the login page by clicking on the login button in the navbar, or on the home page.

3. To Login using the provided credentials, enter the details in their respective fields. To signup, click on "*create an account*" to be redirected to the signup page. Enter your details in the respective fields. Click on the "*Sign in*" button after you have finished entering your details.

Welcome Back!
Enter your credentials to continue

Don't have an account?
[Create an account →](#)

Enter Login details.

Click here to sign up.

Note: If you are signing up, make sure you use a valid, existing email account.

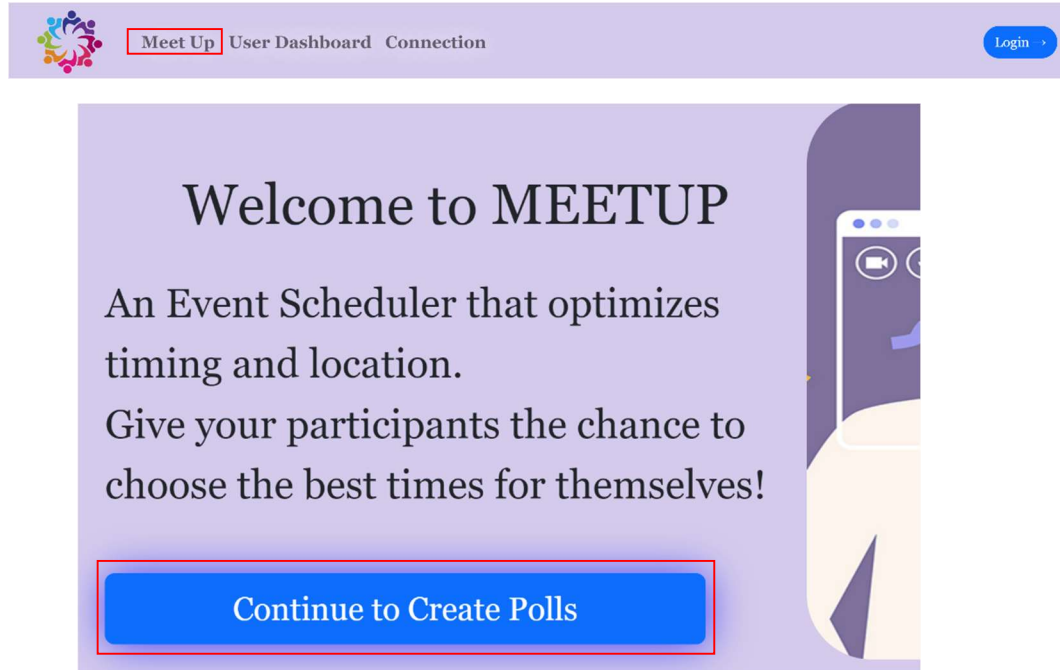

Welcome to MeetUp!
Enter your details to get started

Enter new details. Use an existing email account.

4. Use the Navbar to go where you want. Clicking on “*Meetup*” will redirect you to the landing page, where you can go to create events. Clicking on “*User Dashboard*” will display your current events if you have any. Clicking on “*Connection*” will allow you to check and make Connections with other users.

5. Creating an Event

- a. To create an event, use the “*Meetup*” button in the dashboard to go back to the landing page. Click on “*Continue to Create Polls*” to get started with creating the polls of an event.

- b. On the poll creation page, fill in the details of your event in the provided form. You can click on the calendar to easily select a date and time for your poll. Click on “*add option*” when you have finished filling out the details of the poll.

Event Name

Event Description

Start Date and Time:
 

End Date and Time:
 

Location:

Add option

- c. You can remove an option that you wish to not have by clicking on the “*remove*” button. Once you have finished creating all our options, click on the “*Finish Creating Poll*” button to finish creating your event.

Start Time	End Time	Location	
30 April, 2023 4:44pm	30 April, 2023 5:44pm	Zoom	remove
30 April, 2023 4:44pm	30 April, 2023 5:44pm	In Person	remove
01 May, 2023 6:00pm	01 May, 2023 7:00pm	Zoom	remove
01 May, 2023 6:00pm	01 May, 2023 7:00pm	In Person	remove

[Finish Creating Poll](#)

- d. After you have finished creating the poll, you will get an alert stating that the event was created successfully. You can then click on the “*Invite Participants*” button to get the invite link for your event response.

ec2-54-174-186-17.compute-1.amazonaws.com:3000 says

<http://ec2-54-174-186-17.compute-1.amazonaws.com:3000/Response/7>

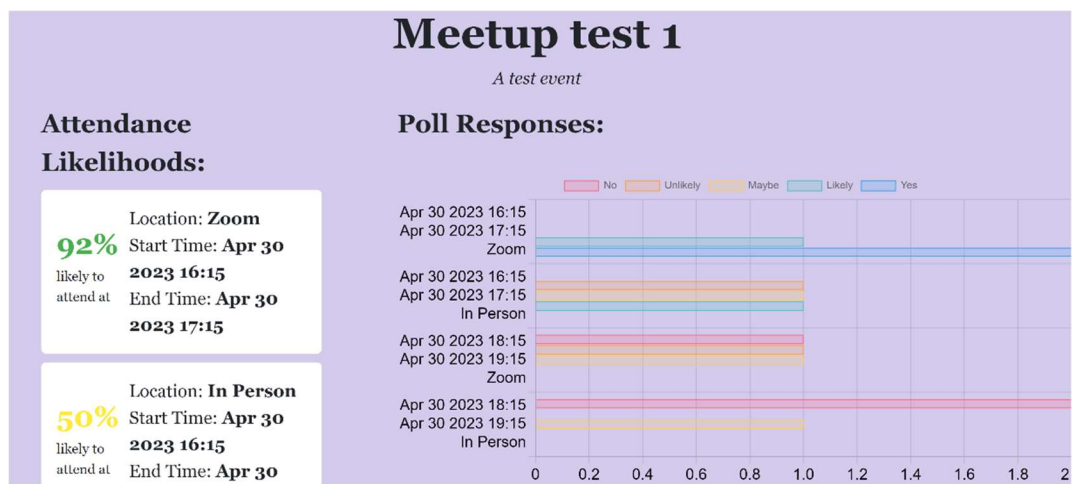

- f. You can also view the details of your event from the User Dashboard, which you can navigate to using the Navbar.

- g. On the User Dashboard page, you can view all your events. Clicking on the “*See details*” button will show the time and location details if the event has been finalized. Clicking on the “*Invite*” button will display an alert with the invite link.

- h. Clicking on the “*See Poll Statistics*” button will redirect you to a page with a statistical representation of the responses for each poll on the right, and the likelihood of attendance of each poll on the left.

6. Responding to an Event

- a. To respond to the polls of an event with your availability, you will need an invite link provided by the organizer. Copy this link into your browser, and you will be redirected to a response page.

Note: If you are not already logged in, make sure you log in.

The screenshot shows the 'Meetup test 1' event page. At the top, there's a navigation bar with 'Meet Up', 'User Dashboard', and 'Connection'. A user profile box in the top right shows 'meetupevents518@gmail.com' and a 'Logout' button. The event title 'Meetup test 1' and subtitle 'A test event' are centered. Below this, there's a 'Show entries' section with a dropdown set to '10' and a search bar. The main content is a table with 5 columns: ID, Start Time, End Time, Location, and Response. It contains 4 rows of poll data. Each row has a 'Respond' button. At the bottom, it says 'Showing 1 to 4 of 4 entries' with 'Previous', '1(current)', and 'Next' navigation links.

ID	Start Time	End Time	Location	Response
1	30 April, 2023 4:15pm	30 April, 2023 5:15pm	Zoom	<button>Respond</button>
2	30 April, 2023 4:15pm	30 April, 2023 5:15pm	In Person	<button>Respond</button>
3	30 April, 2023 6:15pm	30 April, 2023 7:15pm	Zoom	<button>Respond</button>
4	30 April, 2023 6:15pm	30 April, 2023 7:15pm	In Person	<button>Respond</button>

- b. A table with all the polls from the event will be displayed. Click on the “*Respond*” button corresponding to the poll that you wish to respond to. A pop up displaying the details of the poll and a list of responses will be displayed. Select the response that matches your availability.

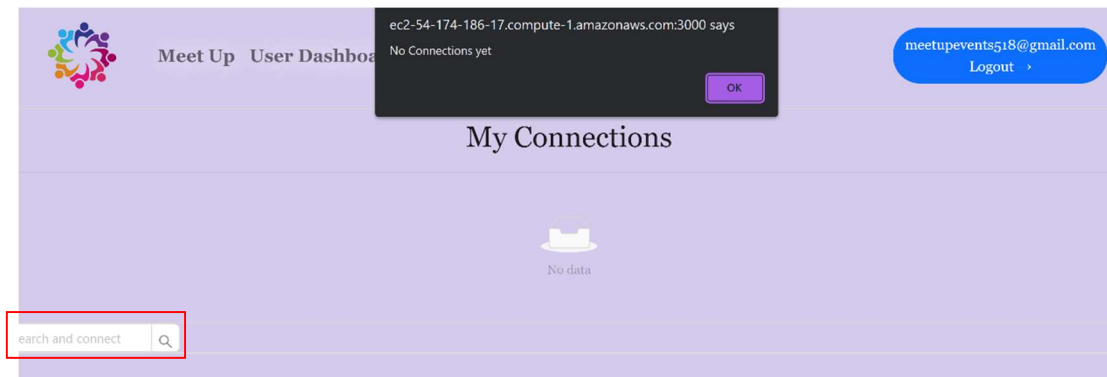

The screenshot shows a modal window titled 'Likelihood of attending' with a close button (X) in the top right. The content inside the modal is for 'Meetup test 1' (A test event) on '30 April, 2023 4:15pm to 30 April, 2023 5:15pm' at 'Zoom'. In the center, there's a vertical stack of five buttons: 'No' (red), 'Unlikely' (purple), 'Maybe' (blue), 'Likely' (blue), and 'Yes' (green). A red rectangle highlights these buttons. At the bottom right of the modal is a 'Close' button. Below the modal, the same navigation links 'Previous', '1(current)', and 'Next' are visible.

7. User Connections

- a. You can navigate to your connections page through the Navbar.

- b. A page with all your connections will be displayed. If you have no connections, an alert will pop up saying so. To make a connection, you can search for a user via their name or email using the search bar. Clicking the search button without typing anything in the bar will display a list of all the users.

- c. To connect with a user, click on the connect button. Once you have connected with a user, you can disconnect from them via the disconnected button listed next to their connection.
